ABOUT

I'm driven and passion to become a valuable part of the ever-growing IT Industry, specifically In the fields of Web Development. Equipped with a Bachelor of Science in Information Technology degree. I Believe I have a diverse skills set which allows be to be effectively work in multiple areas of my field. I am always willing to learn new technology, I am a fast-learner, hard worker with a high ambitions and always striving to better myself.

EDUCATION

College **:** Bachelor of Science in Information Technology *(June 2011 - May 2015)*
: ABE International Business College, Manila, Philippines

College **:** Diploma in Software Development Level 7 *(Feb 2018 - Present)*
: Edenz College, Auckland, New Zealand

EXPERIENCE

Web Developer : Maverick Heroes Inc *(March 2015 - August 2015)*

Who they are **:** They have worked on custom-made projects for clients from the apparel, finance, health, social networking and numerous e-commerce businesses from the U.S., Europe, Canada and Australia.

What I did **:** Convert custom design into working website. I worked closely with the designer, it's about on how their design make it possible to translate it into codes and how it will work on the actual website. Also with the programmer by guiding them on how did I construct or create the HTML mockups. Ensure to bring the best quality website based on what the clients needs, even working with multiple projects and deliver it on time.

Projects **:** http://solutionsarchitecture101.com
: http://gofundmyteam.com

Web Integrator : transcosmos Asia Philippines Inc *(September 2015 - January 2018)*

Who they are **:** A BPO company that offers a Web development service. One-stop E-commerce in Asia, gateway to the Asian Ecommerce Market. In late 2016 they partnered a company in Europe, Vaimo, A full service omni-channel solution provider on the magento platform.

What I did **:** As a Front-End Web Developer who is motivated to combine the art of design with the art of programming. My responsibilities include translation of the UI/UX design wireframes to actual code that will produce visual elements of the website. I worked with the HQ and Bridge Director, taking an active role on both sides and defining how the website looks, as well as how it works.

Projects **:** https://www.ana.co.jp
: https://www.surugabank.co.jp
: http://www.wacoal.jp

Front-End Web Developer (Magento) : Vaimo, Stockholm, Sweden *(February 2016 - April 2016)*

Who they are : Vaimo has delivered more than 400 eCommerce solutions on the Magento platform using the best practices and providing you a truly global service with local expertise.
Vaimo's offices are located in 11 countries and 14 cities in Scandinavia, Europe, the Middle East, Asia, and Africa, but we provide solutions to merchants all over the world.

What I did **:** I was luckily given a chance to trained in Vaimo Stockholm, Sweden. The world's leading E-Commerce solution provider. Having the opportunity to represent our company. I was assigned to build 'Sixpad Training Gear' as a Front-end Web Developer. On this training I learned a lot of things such as:

- Magento Development
- Agile Methodology
- Version control Mercurial (BitBucket)
- Bug tracking - JIRA
- Project Deployment (Jenkins)
- Proper estimation of tasks and project time frames

Projects **:** http://www.sixpad.uk
       : https://betina-ny.com

Front-End Web Developer (Remote) : Hyper6 S.A. *(October 2016 - February 2018)*

Who they are : Hyper6 has a strong reputation as being one of the best web design agencies in the performance marketing industry. Hyper6 has highly skilled team of marketers, designers, developers, and brand experts know exactly what it takes to ensure your website grabs your visitors attention, ensuring your online business is in the top 10% that succeeds.

What I did **:** As I work with them I am driven, committed individual who can create and produce Stunningly beautiful website designs in quick time. I job assignments include PSD to HTML to Wordpress, Email templates, responsive web designs and ensure that it's compatible with all main browsers.

Projects **:** http://outleased.com/
       : http://www.dplads.com/
